Print length : 214 pages

The book is divided into five sections:

- **Section 1: The Menstrual Cycle**
- **Section 2: Pregnancy**
- **Section 3: Menopause**
- **Section 4: Gynecological Disorders**
- **Section 5: New Horizons in Gynecological Endocrinology**

Each section is written by a team of experts in the field, and provides a comprehensive overview of the latest research and clinical practice.

Frontiers In Gynecological Endocrinology is an essential resource for anyone involved in the care of women's health. This book is a must-have for gynecologists, endocrinologists, reproductive endocrinologists, and other healthcare professionals who treat women with gynecological disorders.

Section 1: The Menstrual Cycle

The menstrual cycle is a complex process that is regulated by a number of hormones. This section of the book provides a comprehensive overview of the menstrual cycle, including the hormonal changes that occur during each phase of the cycle.

Topics covered in this section include:

- The hypothalamus-pituitary-ovarian axis
- Follicular phase
- Ovulation
- Luteal phase
- Menstruation

Section 2: Pregnancy

Pregnancy is a time of significant hormonal changes. This section of the book provides a comprehensive overview of the hormonal changes that

occur during pregnancy, and how these changes affect the mother and the developing fetus.

Topics covered in this section include:

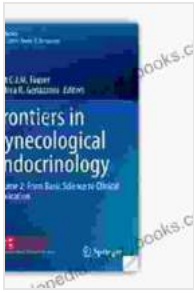

- The early stages of pregnancy
- The placenta
- The fetal-maternal unit
- Hormonal changes during pregnancy
- The effects of pregnancy on the mother
- The effects of pregnancy on the fetus

Section 3: Menopause

Menopause is a natural transition that occurs in women around the age of 50. This section of the book provides a comprehensive overview of menopause, including the hormonal changes that occur during menopause and the symptoms of menopause.

Topics covered in this section include:

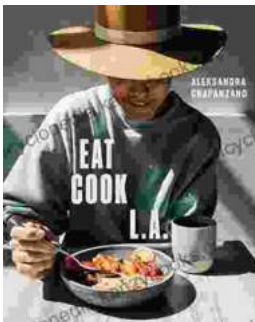

- The definition of menopause
- The symptoms of menopause
- The hormonal changes that occur during menopause
- The health risks of menopause
- The management
