twice his age. He is a certified commercial pilot, flight instructor, and the youngest person to ever fly solo around the world in a single-engine airplane.

Garcia's journey into the world of aviation began at a young age. He was fascinated by airplanes and would spend hours watching them take off and land at his local airport. When he was 16, he took his first flying lesson and was immediately hooked. He knew that he wanted to become a pilot.

Garcia worked hard to achieve his dream. He excelled in his studies and earned his pilot's license at the age of 17. He then went on to earn his commercial pilot's license and flight instructor's certificate.

In 2018, Garcia made history when he became the youngest person to ever fly solo around the world in a single-engine airplane. He flew a Cessna 172 Skyhawk over 28,000 miles, making stops in 15 different countries. His journey took him through a variety of weather conditions and challenging airspace, but he never gave up.

Garcia's accomplishment is a testament to his skill, determination, and passion for aviation. He is an inspiration to young people everywhere who dream of pursuing their dreams. He is also a role model for other pilots, showing them that anything is possible with hard work and dedication.
